Jim Straeter, Owner

New Holland Rochester

1260 E. 100 South

Rochester, IN 46975

Dear Mr. Straeter,

We were having a safety training last night and working around our aircraft. Our boss, Chad Owen was saying how grateful he was for the excellent service and assistance you provided in the acquisition of the 2 New Holland tractors to tow our helicopters in and out of our hangars. We needed something that was absolutely reliable and sturdy enough for long service. Your tractors have been wonderful and exactly what we needed. We thought you might enjoy seeing one hooked up to pull Samaritan 2. This is the aircraft based in Rochester, it has a maximum weight of just over 9,000 lbs. We can't help anyone if we can't get out of the hangar. The New Holland Boomer 20 has been more than equal to the task. Thanks again for your help and support.

Sincerely,

Parkview Samaritan Flight Team.
