## Notes

Many of the toys are meant for kids to play with, but we know there are many collector's out there as well. With our toy selection, here is a quick guideline in regards to referencing the original manufacturer of the toys:

Based on the beginning of the part #, you can identify who the original toy manufacturer is:

ERT - toy is manufactured by ERTL

ZFN - toy is manufactured by ERTL

UH - toy is manufactured by Universal Hobbies

GPR - toy is manufactured by Kinze

Due to market conditions and price changes from these manufacturers, we don't currently list the price of the toys in this magazine. A call to the parts department at any of our locations, listed at the beginning of this magazine, will be able to get you the current pricing information and availability on any of these items. Enjoy!
